NEW LITERATURE

European directory of business information sources and services. A new research information tracking program monitors continuously both new and revised Eastern and Western European sources of business and economic information. Looseleaf reports, intended to answer the researcher's question: "Where do I find...", describe and analyze each information source or service in detail. The 30, four-page profile reports issued each month include reproduced examples of the data as presented, cross-references to similar sources and a critical, cost-effective evaluation by an information specialist. A looseleaf binder with preprinted divider tabs, plus a "core" or starter collection of 40 reports on some of the standard European sources and services, will be mailed to subscribers at startup. A six-month trial subscription is available to initial subscribers at the special rate of $75.00.

For more information, circle No. 155 on the Reader Service Card.

Credit Union compensation. The Credit Union Executives Society has produced a 56-page survey of compensation policies among its members. Included are salaries and wages, clerical staff for financial transactions, geographical comparison, fringe benefits, and much more. The cost to members is $15, $30 to non-members.

For more information, circle No. 156 on the Reader Service Card.

NEW PRODUCTS

Microfilm reader. Dukane Corporation announces the Dukane Microfilm Reader with a new motorized drive attachment for 35mm or 16mm roll film. The microreader has a large 14" x 14" non-glare screen for easier viewing. Even light distribution, precision focus and a high quality lens system give clear, bright picture quality and sharp resolution from corner to corner. Lenses are interchangeable for 18X, 24X and 27X magnification. The microreader accepts roll film, microfiche, jacketed fiche or aperture cards. The microreader is competitively priced at $600.

For more information, circle No. 151 on the Reader Service Card.
